ABOUT ME

I'm an industrial engineer and Full Stack Software Developer with over 2 years of experience. Specializing in Angular, React, Laravel, and Node.js, my focus is on enhancing site functionality, design, and visualization. As a software analyst at Konecta, I drive development, database management, and implementation processes using a range of technologies. Committed to process improvement and leveraging my academic background for better business information flow.

EDUCATION

UNIVERSIDAD DE PAMPLONA
Industrial Engineer, 2015

UNIVERSIDAD NACIONAL DE COLOMBIA
Diploma in Programming and Development, 2021

EXPERIENCIA

KONECTA COLOMBIA – MEDELLIN
